MAGRICHARLIE03@GMAIL.COM

AYR, AYRSHIRE

EDUCATION

University of Guelph, Bachelor of Engineering in Computer Engineering.

SKILLS

CODING

C, C++, C#, Python, HTML, CSS, Java, JavaScript, SQL, Arduino, ARM Assembly, RISC-V Assembly, FreeRTOS, uC/OS-III, VHDL, Verilog, React.

SOFTWARE

GitHub, Figma, Unity, Godot, Visual Paradigm, UML Paradigm, SolidWorks, AutoCAD, Google Colab, Docker, Xilinx, Vivado, Cadence, Excel, GitLab.

PROJECTS

Eye tracking device: Lightweight eye tracking solution using a Pi for external calculations with a fully custom onscreen UI. **Skills: C, Python, Pi hardware integration.**

Path: Mobile game passion project, endless puzzle solver **Skills : C#, Unity.**

Daily Date Game: Wordle style daily game **Skills : HTML, React, CSS, Python.**

Multiplayer Chess Game: Full-stack design of a working chess game to be played across two computers. **Skills: C, Python, HTML, Javascript, CSS, SQLite, Swig**

Wireless Fall Detector: Fall detector integrated with wireless integration between the device, basestation, and mobile device. **Skills: ESP32 design**

Program Counter: Designing a functional 8-bit PC from transistor logic. **Skills: Cadence**

RTOS Security Camera: motion detection with realtime video feed **Skills: FreeRTOS**

AI training comparison: testing training speedups of modern day training technology.

Skills: Python, Pytorch, Google Colab.

Design Day runner-up: Team project involving design and implementation of a function kids toy among all Guelph engineering students. **Skills: SolidWorks.**

WORK EXPERIENCE

WILDFLOWERSFARM | REMOTE ASSISTANCE

June 2023 - Current

General assistance in a large area of tasks including: Automation Engineering, software development, Data entry, Excel formatting, and payroll.

SOLO ON MAIN | PREP COOK

Sept. 2017 - Aug. 2022 | 187 Main St, Port Stanley, ON, N5L 1E1

Hired as a dishwasher worked my way through the kitchen, becoming a Prep Cook and working on the line. I eventually began training new dishwashers and guiding them through the job. This taught me teamwork, how to work under pressure, time and resource management and leadership.

CURRENT WORKS

FOOD FIGHT

- Godot multiplayer game is inspired by Overcooked

BLOCKCHAIN

- Beginner blockchain courses, a simple minting website for collectables, learning Selenium and coding on Ethereum.

CERTIFICATIONS

SolidWorks Associate level Certification

PASSION

Game Development, Designing, Pixelart, Cooking

EXTRA

- Kenny winter Jam 2024
- Christmas Jam 2024
